

NEXT LEVEL TEAMS

A SIX-FORUM TEAM DEVELOPMENT EXPERIENCE

A Team That Sees Itself Clearly Works Better

Six forums that turn self-awareness into team performance. Your people learn how each person is wired, build **one shared language**, and do their real work better together. Fully virtual, built around the work you are already doing.

THE LEARNING JOURNEY

100 Days · Six Forums

- 1 Discover Your Voice**
Each person learns how they are naturally wired and what it is like to be on the other side of them. This is where shared language starts.
- 2 The Power of Your Voice**
Self-awareness becomes useful. The team learns to use the strength of each voice on purpose, instead of by accident.
- 3 The Sherpa Mindset**
Leading by going first and bringing others with you. The posture that makes a team safe enough to be honest.
- 4 The Art of Collaboration**
How the team actually works together: where decisions get made, where they get stuck, and how to move through it.
- 5 Team Kryptonite**
The unnamed patterns that weaken a team. The team learns the tools to overcome them intentionally.
- 6 The Path Forward**
The team turns this season of work into how they operate from here: what they keep, what they change, and what comes next.
